The Dy Comr Mysore

no D3 3817/34-35 dt 18/11/35

submits a scheme for the water supply to Gangam Town

40. The P W D explains the facts of the case and the ways & means proposed for financing the scheme

The points for orders are contained in para 5 of the P W D

41 It is not clear how a loan of Rs 9000 could be paid by Govt to Gangam Mutt, which has not yet come into existence as a corporate body

42 The Director of Health & the Financial Secy may be consulted in the matter (vide paras 5 & 6 of P W D)

The loan has now to be given to the Sringeri Mutt. The Dy Comr's proposal in this respect says that the loan will have to be ultimately discharged by the Gangam Mutt after it is formed

Secy

Secy 22/11/35 MM 25/11

43 The Director of Health may first be consulted regarding the Dy Comr's proposal —

(i) to waive the Govt House Plant charges amounting to Rs 750/-, &

(ii) to give a Govt grant of Rs 8750, which is one half the amount of the estimate as reduced by the Dy Comr

Water supply to Gayam town

L 2305

File No 6 of 1933 | General and Revenue Secretariat

~~Extended water supply scheme~~

54) Remarks after item under report to members minute - para 52 supra

55) Though the earlier scheme of water supply to Seringapatam Then included Gayam in their scope, the revised scheme of water supply sanctioned in G O no $\frac{1}{\text{no C } 133-33-6}$ 6249-51 dt 14-2-34 did not include Gayam

A petition was received from the residents of Gayam in May 34 praying that a water supply scheme may be sanctioned for the benefit at an early date

56) The petition was referred to the Dy Com, Mysore dist, for a report the Dy Com suggested that the Executive Engineer may be instructed to prepare a suitable scheme for extending the water supply to Gayam also the director of health was accordingly asked in Sept 1934 to furnish a rough preliminary

Serial No

Scheme for the work. The Director reports that a scheme costing Rs 25,000 was forwarded to the Provincial Sanctioning Committee for sanctioning and the ways and means to meet the cost thereof

P 57) The Dy Commissioner has framed proposals in the matter & November last. The proposals were (1) that the Forest, Works and Plant charges amounting to Rs 2,56 may be waived (2) that the amount of the estimate may be reduced to Rs 17,5 by omitting certain items of work, which are not immediately necessary (3) and the half the cost of the work may be met by Govt

58) The Director of Health, who was consulted on the proposals of the Dy Com, considered that the Forest, Works & Plant charges could not be waived,

WD 03 94—GPB—30 000—18 7 3

Extract from the Town Notes of the [illegible] of 193[illegible] in the Mysore Secretariat

File No [illegible] of 193[illegible]

Seringapatam and Ganjam

General and Revenue Secretariat

January 1936

Estimates have been prepared (1) for supplying unfiltered water for the cultivation of figs and (2) for the supply of ~~water for the cultivation~~ drinking water to Ganjam Enquiries will be made to ascertain whether and why these estimates are pending and whether anything can be done to bring these matters to early disposal Mean while, the Executive Engineer, Sanitary Division has been asked to examine whether water for both cultivation and drinking cannot be more economically supplied from a common pumping station erected near Ganjam, than by enlarging the capacity of the pumping station at Seringapatam and conveying the water through a greater length of main pipes

The Deputy Commissioner raised the question of prohibiting the construction of houses in Seringapatam (Old Town) and encouraging their construction in Ganjam It will be difficult to issue or enforce a general order prohibiting the construction on private sites throughout the fort, but selected places within this area which should be kept as open spaces may be listed and suitable action taken to acquire them gradually

The proposal to bifurcate the Municipality and to constitute a separate Municipal body for Ganjam was discussed with the Municipal Councillors The details have been worked out by the local officers and the Deputy Commissioner is shortly forwarding his scheme But from the information that was available to me it did not appear that the proposed bifurcation was really necessary The possibility of providing separate funds under works and improvement grants for Ganjam should be examined before the extreme step of dividing the Municipality into two is seriously thought of

Submitted for perusal

Water supply to Sanjan

Final File No 6 of 1933-34 General and Revenue Secretariat

Subm with a draft letter for appl

Issue 31/3

30/8/33

To the Director of Health

No 2-7488 dy 1/4/36

Requests him to meet the Secretary Member Council with a tentative programme of works (water supply) during 1936-37, along with the Superintending Engineer

At the meeting of the Director of Health & the Sanitary Engineer on the 14th inst, with the Secretary Member of Council, the Member of Council was pleased to direct that a draft order may be put up sanctioning the scheme of water supply to Sanjan accepting the D-in-C's proposals for financing the scheme

The records relating to the Scheme by the Plan & estimate etc

Water supply — Panjam

Serial No

are not here, as they were returned to the D. C's Office. It is for orders if these records should be blamed

In view of the urgency of the scheme, a draft-G O is submitted as per orders on the following lines:—

a) The E-D charges have been taken into Calculation at 12½% and the cost of the pressure filter & of its erection amounting to Rs 3759/- omitted from the estimate

b) The cost of the estimate* Rs 19988/ will be borne in equal proportions by the Govt and the municipality

c) The Govt share would come to Rs 9994/- As the work has to be commenced immediately, it is proposed to allot an amount of Rs 6050/- by reappropriation of the grant-in-aid sanctioned to Madurai, Arakalgud & Chennapatna during the current year, as it will be seen from the statement submitted that these works are not likely to be taken up during the year and the balance will be allotted out of the water supply grant next year.

WD 63504—GPB—30 000—1-37-36

Water supply — Lanjam

Mk File No 6 42 of 1933-34 General and Revenue Secretariat

d) In regard to the Mk share of the cost, the Mkt has no funds at its credit. The D.C recommends the grant of a loan at 5½% repayable in 12 years. As the Es-T P charges are taken into consideration, the Mk share comes up to Rs 10,000. The Mk Cl have agreed to take the loan inspect the interest & sinking fund charges in addition. This loan would be in addition to the one already sanctioned to the Mkt for water supply scheme of Seringapatam at 5½%, repayable in 12 years.

As it would take a long time to get the opinion of the Mk Cl afresh in regard to the loan, it is suggested in the Mkt that the loan would be given & it would carry interest at 4-1/2% in accordance with the recent decision. If the Mk Cl want to consolidate the loans, they will come forward with a proposal to that effect when it may be considered.

The difficulty is for orders.

SIR

Report on the petition addressed to the Dewan and Second Member of Council by Mr Janardhanaiya and other residents of Ganjam

---

With reference to your letter No L 402/Ml 6-33-101 dated 23rd July 1934 regarding the above, I have the honour to submi herewith copy of letter No 75 of 34-35 dated the 16/19th August 1934 from the President, Seringapatam Municipal Council, and copy of resolution passed by the Municipal Council at its meeting held on the 5th idem It will be seen therefrom that in regard to the representation about a water supply scheme to Ganjam, the Council are anxious to extend the Scheme to Ganjam but want of funds prevents them from doing so The President proposes that a cheap water supply scheme may be got prepared and sanctioned, the cost being met partly from a grant by Government, and partly by a loan to be granted from the funds of the local Muzrai Institutions

In these circumstances, I request that the Executive Engineer, Sanitary Division may be instructed to prepare a suitable scheme for extending water supply to Ganjam also

I have the honour to be,
Sir,
Your most obedient servant,

For Deputy Commissioner,
Mysore District
(Absent from Headquarters)

NRS

The President, Municipal Council,

Letter No 75/34-35 dated 16/19th August 1934 from the Sub Division Officer, French Rocks Sub Division, to the Deputy Commissioner, Mysore District

---

With reference to your Memo No D3 256/34-35 dated the 25th July 1934 forwarding for report the petitions addressed to the Dewan and Second Member of Council from Mr Janardaniah and other residents of Ganjam, I have the honour to report that the petitioners alleged that the Municipal Council are unfair towards them, that sufficient attention is not paid to the improvement of Ganjam, that there is great difficulty for water supply and pray that the Municipality may be abolished and savings effected by the abolition of the post of the Sanitary Inspector, Vice President etc , and that the amount so saved may be utilised for getting improvement works effected through the Public Works Department etc The petitions were placed at a special meeting of the Municipal Council on the 5th of August 1934 and after deliberate consideration, the Municipal Council passed a resolution, a copy of which is herein enclosed for your kind perusal

The allegation of the petitioners that the Council have not been paying any attention to Ganjam is not fair The Council is anxious to do much more than what they want but they are unable to do anything for want of funds It is, no doubt, true that there is difficulty for water in this place But the Municipal Council are unable to do anything owing to their poor financial condition I therefore suggest that a cheap water supply scheme may be got prepared and sanctioned early As resolved by the Council, the cost of the scheme may be met by a suitable grant from Government and the rest by sanctioning a loan from out of the funds of the local temples

---

Copy

for Deputy Commissioner,
Mysore District

Special meeting Proceedings of Serungapatam Town
-nicipal Council, held on 5-8-1934

[illegible] The Petitioners was read and discussed The Council unanimously consider that the charges levelled against the Mul administrations of being unfair to the Gayam are false and irresponsible The Council is not in favour of the proposals submitted by the petitioners for the suspension of the Municipal Council and managing et by the D P O and other similar requests As regards the other requests for measures of amelioration and starting of Industrial Concerns the Council will be happy if the Government start such measures Regarding the prayer for supply of filtered water to Gayam, the Council regrets that it has no ready money to undertake the works, but submits that the Government be requested to make a suitable grant and to make available the balance amount as a long term loan on a very low rate of interest or free of interest from out of the funds of the local Muzrai temples and to extend the water supply to Gayam also The Council is prepared to meet the interest & Sinking fund charges as well as to maintain it Suitable proposals may be submitted to Government in the matter

FROM

J V KARVE ESQ MB ChB (EDIN) DPH (LOND)
Director of Health with the Government of
His Highness the Maharaja of Mysore
Bangalore

To

The Secretary to Government,
Development Department, Bangalore

SIR

With reference to your letter No L 4584 dated the 3rd January 1935, I have the honour to state that a scheme costing Rs 25,000/- has been forwarded to the President, Town Municipal Council, Seringapatam on the 26th October last year, for his countersignature and return, pointing out the source of funds As it was considered costly to instal a separate pumping unit at Ganjam necessitating also a separate maintenance staff, the scheme proposed provides duplication of the present installation at Seringapatam proper, and water led in a 4" main to Ganjam

Communication from the President is awaited

I have the honour to be,
Sir,
Your most obedient servant,

OFFICE OF THE SECOND MEMBER OF COUNCIL
1 JUNE 1935
No 1679

Sir

I beg to enclose herewith a copy of the resolution passed by the citizens of Serungapatam Town at a meeting held on 22nd instant

As will be seen from the said resolution you will be pleased to find that the "Gayam Division" which belongs to the Serungapatam municipality at present is usurping about Rs 4250/- annually in addition to the municipal income realised in the said Gayam Division as a result of which no improvement could be effected to the Serungapatam town.

Serungapatam town possess

Very great historical importance and religious associations and attracts many visitors off and on

Owing to the Sympathetic Considerations of the benign govt, a levy of pilgrimage tax on Railway Traffic was introduced and water supply was effected with the help of a generous contribution of Rs 15000/- by one Mr H Ramiah On account of the water supply, Serangapatam municipality still owes a heavy debt to the Sta

Since the revenues of the municipality is inadequate and working under deficit balance present the improvements of sanitation and roads could not be accomplished and the town is becom unhealthy for want of proper drainag

Amidst the above desadva the people of Gan[illegible] tourists

tempted by the desire of getting water supply by means of contracting a heavy debt, and for this purpose they have been urging through their representatives in the municipal council

If inspite of the above financial crisis in the municipality the Govt were to be pleased to grant the water supply to Gajapam on condition of discharging the debt by the municipal income the consequences will be disastrous For the above reasons the Bifurcation of the Gajapam division from the municipality of Serangapatam is quite necessary in the interests of Serangapatam town

The undersigned humbly requests for orders calling for all the records and to defer the water supply Scheme to Gajapam division till the question of Bifurcation of Gajapam division from

the municipality of Serangapatam
Settled

I beg to remain
Sir
Your most obedient and
humble Servant
K N Simha
president of the public

SIR

WATER SUPPLY SCHEME TO GANJAM TOWN

With reference to your letter No L 982/Ml 6-33-108 dated the 1/3rd August 1935, and subsequent reminder thereon re the above, and adverting to correspondence ending with this office letter No D3 4249/33 dated the 4th March 1935 regarding the payment of Rs 9000/- by Mr H Ramayya for the water supply scheme at Seringapatam, I have the honor to submit herewith the records ending with report No Al 161/35 dated the 14th November 1935 from the President, Seringapatam Town Municipal Council in the matter, and to state as follows .

1) The Ganjam Water Works Scheme is estimated to cost Rs 25,000/- by the Department of Sanitary Engineering This includes a sum of Rs 3813/- being the establishment, tools and plant charges at 18 per cent But according to Government Order No G 2144-62/Ml 43-35-2 dated the 18th September 1935 such charges have been fixed at 12½ per cent, calculated on this basis, the establishment and other charges work up to Rs 2,560/- The Municipal Council have requested to move Government to kindly waive the entire cost of establishment and other charges as they have done in the case of Chennapatna and other Municipalities in view of the heavy loans and other obligatory items of expenditure devolving on them This request may kindly be favourably considered

2) Deducting the establishment and other charges as proposed above, the cost of the Scheme comes to Rs 21,187/-

2500
3500
6000

It is besides proposed that the installation of a pressure filter which is estimated to cost Rs 3500/- may be deferred for the present The Sanitary Engineer, Bureau of Sanitary Engineering, who was consulted in the matter is also of the opinion that this work may be taken up as and when funds permit The cost of erecting this filter which comes up to Rs 259/- may also be eliminated for the present

2500
6090
1891

3 Thus it will be seen that the initial outlay required to push through the Ganjam Water Supply Scheme would be Rs 17,428/- or roughly Rs 17,500/- It is also reported that no extra expenditure need be incurred on the annual maintenance charges In fact, the report of the Sanitary Engineer also does not contemplate the incurring of any extra maintenance charges The existing establishment is reported to be quite sufficient provided they work for a few hours extra daily The only question then is how to finance the Ganjam Water Supply Scheme proposed to cost Rs 17,500/-

4 My proposal is as follows - Government may be pleased to sanction a liberal grant of Rs 8,750/- from State Funds being a moiety of the estimated cost, the remaining half being met from Municipal Funds Before suggesting the ways and means, I beg to state that Government in their Order No L 6249-57/M1 133-33-6 dated the 14th February 1934 sanctioned a loan of Rs 20,000/- to Seringapatam Municipality being the contribution payable by the Municipality for the Water Supply Scheme This loan which carries 5½ per cent interest is repayable in 12 annual instalments The Seringapatam Municipality Council have already paid one instalment of the loan viz , Rs 2320-9-7 Government in their Order No L 5908-10/M1 133-34-4 dated the 20/26th February 1935 directed that the donation of Rs 9000/- promised by one Mr H Ramayya should be recovered and adjusted without delay towards the part adjustment of the loan so as to save the

save the Municipality from the payment of 5½ per cent interest on the entire loan Accordingly a sum of Rs 3500/- which was paid in cash by Mr Ramiah was adjusted to the loan on 2nd March 1935 The balance of Rs 5500/- which is held in the shape of Fixed Deposit Receipts in the name of the Deputy Commissioner will also be placed at the disposal of the Comptroller for immediate adjustment of the loan In all, the Seringapatam Municipal Council will have discharged a sum of Rs 11,320-9-7 inclusive of interest out of the loan of Rs 20,000/- Roughly the net amount of loan repayable is thus Rs 9000/- The liability of the Municipality towards the Ganjam Water Supply Scheme will be limited to Rs 8750/- as stated above This amount will have to be discharged ultimately by the Ganjam Municipality after the bifurcation scheme becomes an accomplished fact I therefore request that Government may be pleased to sanction a loan of Rs 9000/- carrying interest at 5½ per cent repayable in 12 years There will be practically no difficulty whatsoever in the annual repayment of both the loans, (the consolidated amounts come up to Rs 18,000/-) from the income derived from Pilgrim Tax Toll revenue, water rate etc , ear-marked for the purpose

In these circumstances, I request that sanction of Government may kindly be obtained to the Water Supply Scheme of Ganjam as per modified estimate of Rs 17,500/- waiving the establishment, tools and plant charges as a special case, and also by sanctioning a loan of Rs 9000/- towards the contribution payable by the Ganjam Municipality

2) The Comptroller may kindly be addressed to receive the sum of Rs 5500/- kept in Fixed Deposits in the name of the Deputy Commissioner and adjust the same for the part discharge of loan sanctioned to Serirgapatam Municipality

The

The favour of early orders of Government is requested

I have the honor to be,

Sir,

Your most obedient servant,

Deputy Commissioner,

Mysore District

Ref - No L C270/11 C-33-111 dated 18th February 1936 regarding improvement of water supply to Gurjan

---

I have the honour to forward herewith for the information of Government, a copy of letter No 523 dated 2nd March 1936 of the Sanitary Engineer, Bureau of Sanitary Engineering giving his opinion in the matter

I have the honour to be,
Sir,
your most obedient servant,

P Parthasarathy
Director of Health

Letter o 528 dated 3rd March 1936, from the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, to the Director of Health in Mysore, Bangalore

***

Re Inspection notes of the Second Member regarding Gurjan Water Supply

With reference to the above forwarded with our o C 353-11 dated 27-2-1936, I have the honour to state that the drinking water supply scheme to Gurjan was sent in October 1934 whereas, the one for fig cultivation was preferred in ovember 1935 The former is for filtered water supply and the latter unfiltered, the area to be covered up in each case being different

The quantity of water required for fig cultivation is much heavier than that of the drinking water The rate of discharge in ore case is about 3400 gallons per hour and the other 9000 gallons per hour The distribution mains in the latter case are much bigger than the other case as large volume of water has to be supplied to each land owner simultaneously ctually this system is on a much more elaborate scale than the other one

If both are to be included in one, pressure filter has to be introduced and the cost of filters alone for such a big capacity of filters come to very nearly Rs 10,000 ore permanent and bigger building has to be constructed to locate the pump and filters and this as the cost of erection and upkeep will by no means be a more economical proposition

After all, the cost of the rising main costing Rs 10,000/- will only be a heavy cost in the original scheme and as part of this line is proposed to be utilised for distribution l o the extra cost involved may only be about 7000/- Rs + Rs,12,000/- excluding the recurring cost of filteration etc ,

Under the circumstances it is better to keep the two schemes separate and start the fly cultivation scheme with the smaller estimate of Rs 10,000/- for the present The other estimate providing water may kindly be kept separate as it is found to be more economical and convenient in adopting it

Letter No D3 3813/34-35 dated 18th November 1935 from the Deputy Commissioner, Mysore District, submitting a scheme of Water Supply to Ganjam

Correspondence ending with letter No C 358-13 dated 11/13th March 1936 from the Director of Health, furnishing his opinion in regard to the improvement of water supply to Ganjam

---

Order No L47-9/me 6-33-113

Dated, 8-6-36

A scheme of protected water supply for Ganjam, a suburb of Seringapatam Town Municipality, has been under the consideration of Government for some time The Deputy Commissioner, Mysore District, has submitted proposals in the matter, in consultation with the Bureau of Sanitary Engineering, and suggested ways and means for financing the scheme The estimate for the scheme with the modifications noted in the margin is sanctioned for Rs 19,988

ges for estab ment, tools, plant, reduced to Rs 3560 g 12½ per cent he outlay, of pressure Rs 3757/- er and erec- charges omitted

Government will meet one half of the estimated cost, viz , Rs 9,994 and the other half will be met by the Municipal Council of Seringapatam As the Municipality is not in a position to meet its share immediately, Government are pleased to sanction a loan of Rs 10,000 to the Municipality repayable in

12 equal annual instalments at 4½ per cent interest The Comptroller will intimate direct to the Deputy Commissioner, Mysore District, the amount of the equated instalment payable by the Municipality on account of principal and interest on the loan

Towards their share of the cost, Govt will allot a sum of Rs 6,050 this year, the amount being met by appropriation of the grants sanctioned in G O No L 2821-31/M1 , 113-35-2, dated 18th October 1935, to Madhugiri Arkalgud and Channagiri Municipalities ~~in~~ which the water supply schemes ~~in~~ there towns are not yet ready and the amounts are not likely to be utilised during the current year The balance will be allotted out of the next year's grant for water supply to towns subject to the final acceptance of the terms of the loan by the Municipal Council, the work should be taken in hand by the Bureau of Sanitary Engineering immediately and finished as early as possible

The Deputy Commissioner, Mysore District, is requested to see that provision is made in the future budgets of the Seringapatam Town Municipality for the payment of the annual instalments of the loan by earmarking the portion of the revenue realised by the levy of toll and water rate, etc

The Deputy Commissioner, Mysore District, may, as proposed by him, arrange in consultation with the Comptroller to adjust the sum of Rs 5,500 out of the donation of

former's name towards the part discharge of the loan of Rs 20,000 sanctioned in G O No L 6249-57/M1 133-33-6 dated 14th February 1934 to the Seringapatam Town Municipality

Read:-

Letter No.PH.3815/34-35 dated 10th November 1935 from the Deputy Commissioner, Mysore District, submitting a scheme of water supply to Nanjan.

Correspondence ending with letter No.PHS-13 dated 11/12th March 1936 from the Director of Health, forwarding his opinion in regard to the investment of the scheme of water supply to Nanjan.

Order No. L 47-9/ME 6-33

Dated 8th June 1936

A scheme of protected water supply for Nanjan, a suburb of Srirangapatna Town Municipality, has been under the consideration of Government for some time. The Deputy Commissioner, Mysore District, has submitted proposals in the matter, in consultation with the Bureau of Sanitary Engineering, and requested ways and means for financing the scheme. The estimate for the scheme with the modifications (noted below) is sanctioned for Rs. 19,988.

Charges for establishment, tools and plant related to Rs. 2560 being 12½% of the outlay

Cost of pressure filter Rs. 3759 and erection charges omitted

Government will meet one half of the estimated cost, viz., Rs.9,994 and the other half will be met by the Municipal Council of Srirangapatna. As the Municipality is not in a position to meet its share immediately, Government are pleased to sanction a loan of Rs.10,000 to the Municipality repayable in 12 equal annual instalments at 4½% interest. The Accountant will intimate direct to the Deputy Commissioner, Mysore District, the amount of the annual instalment payable by the Municipality on account of principal and interest on the loan.

Towards their share of the cost, Government will allot a sum of Rs.6,000 this year, the amount being met by an appropriation of the grants sanctioned in Government Order No. [illegible] dated 20th October 1933, to Indargiri, Arkalgud and Channapatna Municipalities. The water supply schemes for these towns were

not yet ready and the amounts are not likely to be utilised during the current year. The balance will be allotted out of the next year's grant, for water supply to towns.

Subject to the formal acceptance of the terms of the loan by the Municipal Council, the work should be taken in hand by the Bureau of Public Engineering immediately and finished as early as possible.

The City Engineer, Lahore District, is requested to see that provision is made in the future budgets of the Cantonment Town Municipality for the payment of the annual instalments of the loan by earmarking the portion of the revenue realised by the levy of toll minator rate, etc.

The Deputy Commissioner, Lahore District, may, as proposed by him, correspond in collaboration with the Accountant to adjust the sum of Rs.5,000 out of the donation of Rs. lately held in fixed deposit in the former's name, towards the part discharge of the loan of Rs.2 , as sanctioned in Government Order No.S.O.50-57/51-[illegible]-6 dated 14th February 1954 to the Cantonment Municipality.

[illegible]
For Secretary to Government,
[illegible] Department.

To

The Accountant of Public Works.
The Controller of Accounts, through the Financial Secretariat.
The Deputy Commissioner, Lahore District.
